Your doctor has recommended that you use Chest Scan partner - The X-Ray Group.

You may choose another provider but please discuss this with your doctor first.

PARTNER

The National Lung Cancer Screening Program (NLCSP) is a major public health advancement, focusing on early detection of lung cancer using low-dose chest CT scans, with the goal of reducing mortality and supporting high-risk populations.

The Australian Government launched the NLCSP on 1st July 2025. Chest Scan's partners provide fast and easy access to low-dose chest CT scans for eligible patients at no cost.

Visit the NLCSP website
health.gov.au/our-work/nlcsp

Chest Scan combines all of Integral Diagnostics' (IDX) expert radiologists, resources, and technology.

Specialising in the early detection of lung cancers and diseases, Chest Scan, helps to ensure the best possible treatment options are available.
